

BAE SYSTEMS

Honeywell

4th October 2018 – F-35 PPAP review by BAE & Honeywell team.

“Feedback from the team after the visit to FGP was excellent, comments:-

- *Very well organised company with very mature processes*
- *Knew where everything was within the business, excellent visual management*
- *Loved your bespoke system and its use throughout the facility.*
- *Wished they had more time to spend with you as very impressed.*
- *No requested corrective actions identified, one observation and one suggested improvement opportunity*

You are the only company of HAY suppliers that has come through this with no formal corrective actions, well done”

Simon Money
